

## CONSIDER GATHERING

- A group of your friends
- A spiritual group
- A recovery group
- A group of family members
- A group of your co-workers
- Your business team or staff

### For a workshop with Diane Pendola

“Exploring the Enneagram through the lens of The Lioness Tale”

*The Lioness Tale* brings the principles of the *Enneagram* alive, allowing participants to engage with their own life stories at a deeply personal and transformative level. We begin our first evening together with an introduction to the Enneagram. The following day we have a shared reading of *The Lioness Tale*, punctuated by discussion, personal reflection and solo time. We close our time on the third day with a healing circle integrating our new insights and learning.

**THE ENNEAGRAM** is an ancient tool for understanding ourselves and others. At its most accessible the Enneagram describes nine different personality types or ways of seeing the world. It helps us understand how each type has certain ways of filtering information so that attention returns in habitual ways to repeating patterns. By revealing these largely unconscious patterns that drive our personalities the Enneagram provides a key for unlocking our capacity for greater choice, freedom, self-awareness and compassion.

### THE LIONESSE TALE

From the infinite spaciousness of the Eternal, emerges the story of Lioness. Within the formless dark the Light finds her and calls her into Life so that she might embody the Love for which she is born. *The Lioness Tale* is an invitation to follow the longings of your heart, to experience the Love from which you've come; to re-member that Love—to make it flesh and blood—in this, your one precious life.

**Cost: \$1,200 per group. Includes lodging at Skyline Harvest in the beautiful Sierra foothills**  
Groups provide their own food & meal preparation. Minimum group of 4. Maximum group of 12  
(Yes! That means if you gather 12 people it would only be \$100 per person. What a deal!)
